cavity	root	rinse	clean	toothpaste

Directions

Cut along the dotted lines to separate all four bingo sheets. Give one bingo sheet to each player. Have a fifth person read out words, in any order, from the bingo key above. As words are called out, have players mark the box with a marker. The middle space is a free space, and can be marked at the beginning of the game. When a player marks a full row or column, have them shout out "BINGO!"
